EXPERIENCE

Frontend Developer Intern — Xcodex Technologies Pvt. Ltd.

Remote | March 2024 – May 2024

- Built responsive, user-friendly web interfaces using **Reactjs** and **Tailwind CSS**, contributing to the delivery of client-facing applications.
- Implemented a consistent design system and dynamic UI components, leading to improved user engagement and a reduction in bounce rates.
- Actively participated in code reviews and debugging sessions to ensure **cross-browser compatibility** and maintain **high code quality** standards.

PROJECTS

NewMe Web App

[GitHub Link](#) | [Live Demo](#)

Tech Stack: Reactjs, Tailwind CSS, DaisyUI, Redux Toolkit

- Developed a mobile-friendly web app with routing pages including login, signup, about, home, shop, and cart.
- Implemented debouncing in the search bar using `useEffect` and `useState`.
- Integrated API data fetching using `async/await` and promises for dynamic product rendering.
- Designed responsive layout and improved performance using Redux Toolkit and component-based architecture.

ToDoList

[GitHub Link](#) | [Live Demo](#)

Tech Stack: Reactjs, CSS

- Created a task manager with add, edit, delete, and filter features for tasks (completed/pending).
- Implemented drag-and-drop functionality to reorder tasks.
- Designed a clean, intuitive UI with complete responsiveness.

Movie Recommendation App

[GitHub Link](#) | [Live Demo](#)

Tech Stack: HTML, CSS, JavaScript

- Built a recommendation system with movie search, watchlist feature, and carousel on the home page.
- Integrated pagination and fetched movie data from external APIs.
- Designed a simple and effective UI for seamless user experience.

E-Commerce App

[GitHub Link](#) | [Live Demo](#)

Tech Stack: HTML, CSS, JavaScript

- Developed an online store interface with add to wish-list, add to bag, and checkout features.
- Designed key pages including login, home (product listings), and cart.
- Ensured full mobile responsiveness and real-time updates using JavaScript.

Frontend Technologies: JavaScript, ReactJs, Redux Toolkit, HTML, CSS, Tailwind CSS, DaisyUI, Responsive Web Design

Databases: MySQL

Object-Oriented Programming (OOP): OOP concepts, particularly with Java

Development Tools: Git, GitHub, Visual Studio Code

UI/UX Design: Responsive Design
